

COMPANY OVERVIEW

We are a gold-silver producer based in Golden, Colorado and we will increase shareholder value through our plans for:

- ▶ Profitable production in 2021
- ▶ Growth: two mines producing in 2021-2022
- ▶ Continued exploration success

We hold or control around a dozen precious metals projects in Mexico, Argentina and Nevada (USA). We began producing gold & silver at our Rodeo open pit mine (Durango State, Mexico) in January 2021 and estimate Rodeo should generate \$9.0 - \$10.5 million in after-tax free cash flow during 2021. This cash can be used in part to finance a restart of production at the nearby silver/gold Velardeña Properties, where the use of bio-oxidation technology is expected to achieve superior gold recovery from sulfide concentrates that would in turn support sustainable profitability for at least ten years. We hold district-scale projects in Salta, Argentina and Chihuahua, Mexico and continue to explore projects that present opportunities for eventual production and economic profitability.

The company is well funded, reporting \$8.0M cash on hand as of March 31, 2021.
